## INTERNSHIP EXPERIENCE

### Scalque Technologies | Jr. PHP Developer

February 2024 - April 2024 Pune, Maharashtra, India

- Innovative Full Stack Developer with hands-on experience at Scalque Technologies, where I crafted impactful landing pages using cutting-edge front-end technologies
- Extensively utilized JavaScript and Node.js to develop robust, high-performance web solutions.
- Skilled at transforming complex requirements into elegant, user-friendly designs

## PROJECTS

### Staysphere— Airbnb clone

- Built a scalable web application similar to Airbnb, utilizing Node.js, Express.js, MongoDB, and EJS for dynamic content rendering.
- Integrated Cloudinary for efficient image uploads and Mapbox for geolocation and map-based property listings.
- Secured user authentication with Passport.js, including session persistence and password encryption.
- Implemented responsive design with Bootstrap, ensuring cross-device .

### Burger Website — One Burger at a time

- Created a dynamic Burger website using HTML, CSS, and JavaScript, ensuring seamless browsing and ordering.
- Developed intuitive and user-friendly interfaces with a focus on front-end development.
- Demonstrated expertise in front-end technologies and innovative web design.
- Passionate about pushing the boundaries of web development for enhanced user experience.
